

# July 2022 Release Notes

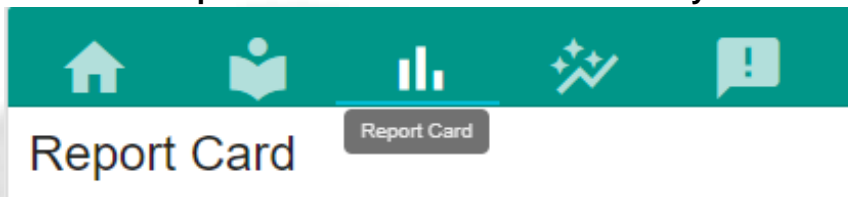

In addition to minor updates and bug fixes, significant updates from the July 2022 release will be highlighted below.

## Product Updates

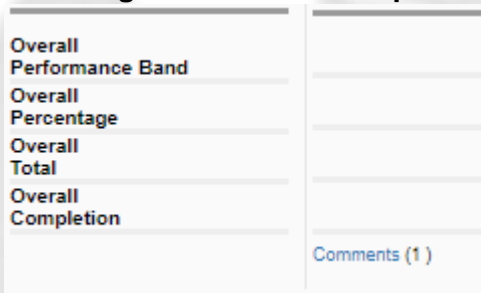

### Comments Section in Report Card

FocalPoint has added the ability to add comments for students in the 'Report Card' tab in learning communities.

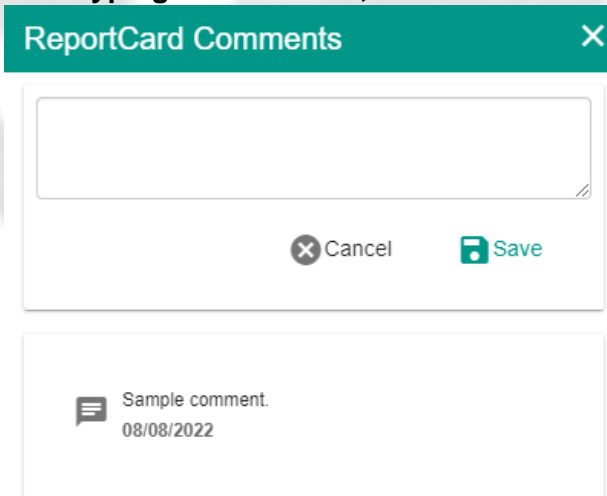

- Select the 'Report Card' tab inside of a community

- Selecting 'Comments' will open the Report Card Comments text box.

- After typing the comment, select 'Save'

- The comment will export with the Report Card

## Record Video Feature

FocalPoint now has the ability for users to record a video or audio clip directly in the platform.

- To record a video or audio clip, select the 'Media' icon on the toolbar.
- Select 'Record' in the 'Media Handler' pop-up box

## Video & Audio Recorder

Select what you want to record:

- Choose between a Video or Audio recording

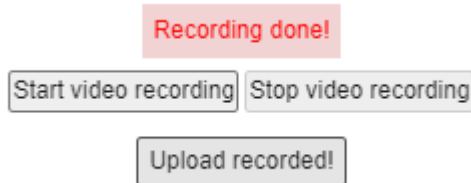

Select what you want to record:

- Select Start Recording to begin recording, and Stop Recording to end the recording

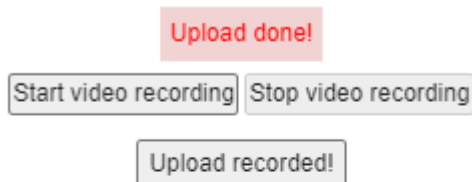

# July 2022 Release Notes

---

- After finishing the recording, select 'Upload recorded!' to upload the recording

- Once you receive the 'Upload done!' message, select 'Ok' to insert the recording into the Text Box.

## Bug Fixes

### Unable to Save Activities Having Rubric

Users may have noticed an issue when trying to save an activity that contained a rubric. This has been fixed, and the activities will save as expected.

### Student Backpack Screen Showing Empty

Users may have noticed students' backpacks were showing empty. This has been fixed, and the backpack screen will now show the student's badges as expected.

### Question-Level Feedback Notification

Students may have noticed when a teacher left feedback on a specific question in an assessment, they weren't receiving a notification. This has been fixed, and now students will receive a notification when feedback is left on a question.
